Venus and Jupiter's Heavenly Tension
Venus and Jupiter face off, pulling tension across the heav-
ens. For all of his largess, Jupiter can hardly overpower the
love goddess, who is fiercely feminine in her Aries armor. Any-
way, neither will win. The lesson: There are many different
kinds of power and just as many ways to wield it. Force is often
the least effective use of power.
ARIES (March 21-April 19). The current cosmic bent will
help you realize the wondrous power of saying no, setting a
boundary and enforcing a limit. Such a gesture will make love
stronger and life simpler.
TAURUS (April 20-May 20). You'll take back your time from
the digital bandits. You won't answer the phone just because
it rings or act on every electronic impulse demanding atten-
tion. You'll enjoy a few distractions -- distractions of your own
choosing!
GEMINI (May 21-June 21). Either your prayers will be an-
swered, or that thing you do that's a little like praying will be
linked to some interesting results. Tonight, hone social skills,
including the art of making a powerful entrance and a smooth
exit.
CANCER (June 22-July 22). For today, "Why?" is not the
right question to ask. The question "How?" on the other hand,
could change your life. It's also a lucky day for running into
the exact people who know about the "how," and you should
definitely take lots of notes.
LEO (July 23-Aug. 22). You refuse to think of yourself as
a victim of circumstance. There are alternatives to explore --
hard to see when you're invested in one way of being, but they
are there nonetheless. Decide to see them. You always have
choices.
VIRGO (Aug. 23-Sept. 22). Sometimes all it takes is a simple
decision to feel different. It's as though you're an actor and
the director has just walked up to you and told you to play the
scene confident, empowered and ready to make the next win-
ning move.
LIBRA (Sept. 23-Oct. 23). The potential for trouble lies in
reacting to events in an emotional and unthinking way. Take
a breath and be thoughtful and deliberate in your response
instead and you'll avoid the trouble altogether.
SCORPIO (Oct. 24-Nov. 21). Embrace the paradise of imper-
fect circumstances. Right now, exactly as you are, you're good
enough to do what you really want to do, to the best of your
ability. Also, you'll never be more ready. Go!
SAGITTARIUS (Nov. 22-Dec. 21). There are people you
you're not happy around and yet can't avoid altogether. When
you have to deal with them, involve others. More people will
dilute the power of one negative influence.
CAPRICORN (Dec. 22-Jan. 19). If you contradict someone,
or even yourself, the energy of conflict will be ignited. This
isn't necessary! Acknowledge the things you can't agree on.
The validation may be all that's necessary to discharge the
bad energy.
AQUARIUS (Jan. 20-Feb. 18). You'll be given gifts today,
although they may be disguised as other things. Your definition
of the term "gift" will be thereby expanded. Whether something
is a gift or a bane is best determined over time.
PISCES (Feb. 19-March 20). You know what fun is to you.
Stick with that today and the smiles keep coming, whereas
subscribing to other people's idea of fun might actually make
you feel irritated, uncomfortable or worse.
TODAY'S BIRTHDAY (May 19). You are very much your own
person this year, and you'll be shedding old myths and defi-
nitions. The next 10 weeks will do wonders for your satisfac-
tion at work and also for your social ties. July presents a fun
challenge and the ideal teammate. November brings romantic
proclamations. Save up through the colder months. Cancer and
Leo adore you. Your lucky numbers are: 9, 40, 2, 22 and 18.
