after action meeting on the flood. The city provided as requested, a storm sewer map created through a storm sewer study done by the USDA a few years ago that shows all the ditches, and inlets and outlets for storm sewers. The Engineer's office is looking into where backflow preventers are needed in the city storm sewer system. WYDOT storm water systems are currently still underwater but some do have a flap gate device on the pipe; these devices are not watertight. South Worland Water Users (SWWU) is planning on disbanding the water system from Road 11 and HWY 16 East to the Golf Course and down Lane 14. This is a fairly old system and SWWU is requesting that Washakie Rural take over the out of city portion, and the City take over the portion from Washakie Avenue north. SWWU is waiting on the Water Development Commission report that should come out sometime in June and City Engineer Representative Donnell recommended that the City review that report before making a decision on the system.

City Attorney Richins reported that he has not heard anything about the Schlumberger property; a letter was written on December 6, 2016 and another letter on January 17, 2017 with no reply on either letter. City Attorney Richins recommended that if we cannot get the property owner to respond the Council should take action. Discussion followed. Councilmembers requested that this issue be discussed at the next Council Work Session.

Clerk/Treasurer Tracy Glanz informed the Council that there will be a WAM Region III meeting in Lovell on March 15th from 5:30 to 7:30 p.m. There will be training on the 15th and 16th on Government Operations and Effective Supervisory Practices provided by Community Builders, Inc.

Chief of Police Elliott reported that the Department received 20,039 service calls in 2016 vs. 19,449 calls in 2015 with a staff of eleven (11) fulltime officers and one (1) fulltime Ordinance Officer. For the size of the community, the police department is small in comparison to other agencies in the state. The officers are doing a great job with the number of calls coming through. Councilmember Gentzler thanked Chief of Police Elliott and his officers for the great job they do. Councilmember Fernandez asked if school signs could be placed around the High School; the high school was not included in the Safe Routes to School project a few years ago because Safe Routes only covers elementary and middle schools. Chief of Police Elliott will talk with Streets Supervisor Jeff Taylor.

Airport Manager Lynn Murdoch reported that the Snow Removal Equipment for the airport should be here around March 24, 2017. The Mayor and City Attorney are reviewing the hangar leases.

There being no further business to come before the Council, Mayor Gill asked for a motion to adjourn.

Motion: to adjourn the meeting at 8:11 p.m.
