Mayor Duffy reported that the Wyoming Business Council (WBC) has changed their emphasis on bringing in new employers to promoting existing businesses. The workforce development program promotes long-term business owners, infrastructure development, leadership and civic engagement, and quality of life. Discussion followed about the strides the Town of Greybull and Basin have made in economic development with the help of WBC. City Attorney Kent Richins explained that new business owners in Greybull bought property under the economic development statute, where a municipality can sell property without going through the bidding process. Mayor Duffy suggested that Leah Bruscano or Ron Harvey with the WBC attend a meeting to provide additional information on programs and funding availability.

The parking at Pioneer Square has become an issue and the city may need to enforce a two (2) hour parking limit. Chief of Police Gabe Elliott stated that the city previously had a two (2) hour parking limit in different areas around town; the ordinance was repealed a few years ago because it was not consistent and hard to enforce. Discussion followed on the necessity for a parking ordinance and the possible use of signs for park patrons only. Chief of Police Elliott clarified that the parking area is on a public street making it difficult to limit parking. The Council made no decision.

Mayor Duffy presented Resolution #2016-4:

gram shall apply to all financial assets of the City of Worland and;

BE IT FURTHER RESOLVED that the City of Worland shall invest public funds in a manner which maximizes the security of the principal sum deposited, generates the highest level of investment return for such secured principal deposits, while meeting the daily cash flow demands of the entity and conforming to all federal, state and local regulations governing the investment of public funds; and

BE IT FURTHER RESOLVED that the investment program for the City of Worland, in priority order, shall be as follows:

- Security: Security of principal sums deposited is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk by limiting investments to the safest types of securities and those allowed by State Statute and diversifying the investment portfolio so that the impact of the potential losses from any one type of security or from any one individual issuer will be minimized. The interest rate risk will be minimized by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and investing in primarily short term securities like WYOSTAR, WYOSTAR2, WGIF or any security made available through the legislative process.
- Liquidity: The City's investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements which might be reasonably anticipated.
- Return on Investment: The City's investment portfolio shall be designed with the objective of attaining a rate of return through budgetary and economic cycles, commensurate with the City of Worland's investment risk constraints and the cash flow characteristics of the portfolio.
- Community Investment: The City's investment portfolio shall be managed with a commitment toward the benefit of the community. To this end, investing in local institutions, domestic instruments, or through local brokers will be the preferred investment strategy. The strategy will be tempered with the City's fiduciary responsibility and policy of attaining a market rate of return.

BE IT FURTHER RESOLVED that the authority to manage the City's investment program be derived from the following:

- Clerk/Treasurer
- Governing Body
- Council Resolution
- Wyoming State Statute
- Federal Laws & Regulations

The Clerk/Treasurer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate and audit investing activities.

Employees and the Clerk/Treasurer shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial investment positions that could be related to the performance of the investment portfolio. Material financial interests are defined to be any type of ownership interest exceeding ten percent (10%) in the financial institution in which City funds are on deposit.

Unless matched to a specific cash flow, the City of Worland will not invest directly in securities maturing more than two years from the date of purchase. Reserve funds may be invested in securities exceeding two years if the maturity of such investments are made to coincide as practicable with the expected use of the funds.

Superintendent of Public Works Brian Burky informed the Council that the parks department and volunteers are moving forward with the assembly of playground equipment at Rotary Riverside Park. The crew will be patching and sealing roads in preparation for putting down GSB88 sealant in late August and early September. The parks are in good shape, except the department is having trouble getting enough water on the Worland Community Center Complex grounds.

City Engineer Representative Mike Donnell attended the Wyoming Department of Transportation (WYDOT) State Transportation Improvement Program meeting this morning along with Mayor Duffy; construction costs are down due to the price of oil products so it is a good time for projects. WYDOT will coordinate with the City on construction of the WYDOT ADA project on Big Horn Avenue and our South 15th Street project.
