**FRIDAY, SEPTEMBER 21, 2018**  
Equinox Eve Focus

It's human nature to believe oneself to be at the center of the universe, as it should be. If each person weren't charged with their own survival, the human race could not have lasted this long. That said, on this eve of the autumnal equinox, your survival is assured so you can happily focus the best of your attention on loved ones.

ARIES (March 21-April 19). People are so complex that they often don't even know their own reasons for taking a certain action. Introspection only captures but the tiny fraction of a thought process. So go easy on yourself. You had your reasons.

TAURUS (April 20-May 20). If you haven't decided what goals to set for yourself, don't rush. Your sincere desire to be useful and helpful will propel you forward better than any other ambition would.

GEMINI (May 21-June 21). You'll be reassessing what matters to you. It's almost as if your priorities come up for review when the sun is about to change signs, and today you'll be reassessing what matters to you in order to better plan your future.

CANCER (June 22-July 22). Staying healthy is about prevention, eating right, sleeping long and being happy. Later you'll be glad you put today's energy toward creating better habits around self-care.

LEO (July 23-Aug. 22). The zoom function of your mind is touchy, and you'll have to check yourself to keep from getting too analytical. Every action counts for something, but no actions count for everything. Hopefully, that takes some of the pressure off.

VIRGO (Aug. 23-Sept. 22). A surge of inner determination will be your lovely parting gift as the sun prepares to leave your part of the sky. You'll push forward, no hesitation, and face life head-on.

LIBRA (Sept. 23-Oct. 23). The best way to handle compliments is to turn them around, flattering the kindness and observation of the giver. These and other niceties are old hat to you. The cosmic attention coming your way will activate your social grace.

SCORPIO (Oct. 24-Nov. 21). You'll make the first call, and you'll also be the one to repeat call when the other person isn't calling you back. That doesn't make you less powerful; it makes you more in control of the relationship's destiny.

SAGITTARIUS (Nov. 22-Dec. 21). People from the past will figure in and you'll find out what they're up to. You'll also note what's changed -- your entire self-concept, for starters. Because you see yourself in a new light, the world does, too.

CAPRICORN (Dec. 22-Jan. 19). Gather more information to satisfy your curiosity or to help

**320 For Sale: Misc.**

yourself understand a situation better, but don't worry about passing judgment. This one is not for you to decide.

AQUARIUS (Jan. 20-Feb. 18). Unfortunately, just because it's called a game doesn't automatically make it fun. But the players can make up the difference today, so invite your favorite people to join you in this "game."

PISCES (Feb. 19-March 20). You have a talent for relating to those whose education and culture is different from your own and this will come in handy today as your life is enhanced by connecting with those from other walks of life.

TODAY'S BIRTHDAY (Sept. 21). You'll perform tremendous feats in May. Your devotion brings someone up. A team will help you achieve a personal goal in July. It's the extra action steps you take in August that will net you new fans and customers. Taurus and Pisces adore you. Your lucky numbers are: 4, 44, 37, 9, and 50.

WEEKEND LOVE FORECAST: ARIES: Fun is on your mind. Party plans get made before the bed will. TAURUS: While some profess their undying love, you'd rather show your feelings through action.

GEMINI: Since you're paying attention, you'll have more to feel happy about and moved by, though you'll also notice things that bother you. CANCER: Relationships reflect your self-esteem back to you. LEO: Your loved one grew up with different rules than you did, and you'll be navigating that foreign territory. What's commonplace for one group is rare for another. VIRGO: Yours will be the sweetest words someone has heard in a long time. LIBRA: You'll overlook the minor flaws in favor of a major lovability factor. SCORPIO: You'll give acceptance and the vibes will swirl back around you. SAGITTARIUS: Love is complicated, but loving acts don't have to be. CAPRICORN: You're still getting used to a certain role. Make it your own instead of doing only what's expected. AQUARIUS: Figure out a way to let someone know who you are without telling the person yourself. Maybe involve a friend. PISCES: Someone you want to love is a package deal. Can you love the people this person comes with, too?

COUPLE OF THE WEEK-END: Aquarius and Libra are an easy match -- spirited and affectionate, with an emphasis on friendship. Falling in love is such a breeze for these two that they may decide to do it every day; passion simmers continuously, without consuming. In order to infuse this union with more desire, these air signs must get more honest than is comfortable. This weekend provides the opportunity for it.
