PUBLIC NOTICE

The Wyoming Public Service Commission (Commission) has approved, on an interim basis, the Application of Wyoming Gas Company to increase its total gas cost factor by \$0.3331 per CCF in order to pass on the extraordinary wholesale natural gas supply costs incurred during the February 2021 cold weather event, effective for usage on and after May 1, 2021. This interim approval is subject to notice, protest, intervention, refund, change, investigation, opportunity for hearing, and further order of the Commission.

The average residential customer using approximately 76 CCF per month may expect a monthly gas bill increase of approximately \$25.32 or 43%, before taxes. Actual bills will vary with usage.

Commission Rule Chapter 3, Section 26 allows a utility to pass on to its customers known or projected commodity cost increases or decreases on a dollar-for-dollar basis, subject to public notice, opportunity for hearing and refund.

Wyoming Gas' Application is on file at its business office in Worland and at the Commission's offices in Cheyenne, where interested persons may inspect it during regular business hours. The Application is also available online at: <http://psc.state.wy.us>.
